Digital Legacy Hub

A free, standalone educational tool about digital accounts, digital property, and AI simulation of people after death, and what world traditions and the law currently say about it. Not a law firm, therapy service, or product endorsement.

About this tool. This site is an accompanying artefact for a Master's capstone project submitted at the London Interdisciplinary School, researching cross-cultural ethics of AI-powered digital resurrection tools and digital legacy planning. It is an educational awareness tool first and foremost, built to help you think and talk with people you trust. **It is not a substitute for legal advice.** For a legally valid will, speak with a qualified solicitor. See the [About page](#) for the full project description.
